

Petrochemical Job Report n° 4

Fagervika tank T19&T21
c/o Statoil - Norway

Facts:

- Start of the project:
April 2008
- End of the project:
August 2008
- Name client:
Statoil Norge AS
Fagervika depot
Trondheim, Norway
- Contact person:
Gunvald Dagfinn Hansen
- Project Manager & consultants:
COWI AS
Oslo, Norway
Contact: Johny Edvardsen
- Applied products:
HUMIDUR®
- Applicator of the product:
Tylar Korrosionsservice AS
Hell, Norway
- Agent or distributor involved:
Jak J. Alveberg AS
Osteras, Norway

Project in numbers:

- Treated surface:
1212 m²
- Amount of kg Humidur:
1248 kg (SPC253)
- Duration of the project:
4 months

Acotec nv

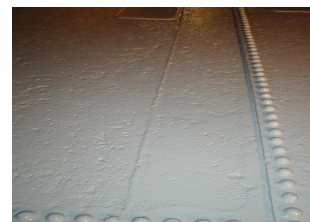

Short description or extra info of the project

Scope of work :

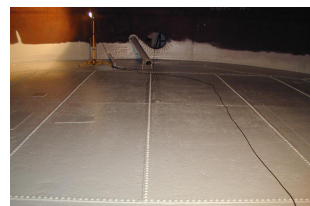

Refurbishment of sealing floor-wall tank T19 and T21, inside coating work, bottom floor and tank shell.

The job included a complete renewal of the sealing between the tank floor and the tank wall. After gritblasting, degreasing, dedusting and stripe-coating of the tank floor and wall, a final coat of minimum 400µm was applied as a complete corrosion protection of the interior tank.
